GARY GREENBERG

MANUFACTURING DEPRESSION

The Secret History of a Modern Disease

In an enlightening, provocative look at the industry of depression treatment, psychotherapist Gary Greenberg offers a fascinating argument about the uniquely American pursuit of antidepressant rather than happiness.

“Am I happy enough?” This has been a pivotal question since America’s inception. “Am I not happy enough because I am depressed?” is a more recent version. Psychotherapist Gary Greenberg shows how depression has been manufactured—not as an illness but as an idea about our suffering, its source, and its relief. He challenges us to look at depression in a new way.

In the twenty years since their introduction, antidepressants have become staples of our medicine chests. Upwards of 30 million Americans are taking them at an annual cost of more than \$10 billion. Even more important, Greenberg argues, it has become common, if not mandatory, to think of our unhappiness as a disease that can—and should—be treated by medication. *Manufacturing Depression* tells the story of how we got to this peculiar point in our history.

EIGHT WHITE NIGHTS

A Novel

A lushly romantic novel from the author of the critically acclaimed *Call Me by Your Name*.

Eight White Nights is an unforgettable journey through that enchanted terrain where passion and fear and the sheer craving to ask for love and to show love can forever alter who we are. A man in his late twenties goes to a large Christmas party in Manhattan where a woman introduces herself with three words: "I am Clara." Over the following seven days, they meet every evening at the same cinema. Overwhelmed yet cautious, he treads softly and won't hazard a move. The tension between them builds gradually, marked by ambivalence, hope, and distrust. As André Aciman explores their emotions with uncompromising accuracy and sensuous prose, they move both closer together and farther apart, culminating on New Year's Eve in a final scene charged with magic and the promise of renewal.

PHILIP HOARE

THE WHALE

In Search of the Giants of the Sea

In the tradition of the bestselling *Cod* and *The Secret Life of Lobsters*, a lively, prizewinning travelogue through the history, literature, and lore of the king of the sea: the whale.

The whale is the largest, loudest, oldest animal ever to have existed. It is improbable, amazing, and—as anyone who has seen an underwater documentary or visited the display at the American Museum of Natural History can attest—a powerful source of wonder and delight to millions. *The Whale* is an extraordinary journey into the world of this fascinating and mysterious animal.

Acclaimed writer Philip Hoare visits the historic whale-hunting towns of New Bedford and Nantucket, wanders the streets of London and Liverpool in search of Melville's whaling inspiration, and swims with sperm whales in the middle of the Atlantic. Through the course of his journey he explores the troubled history of man and whale; traces the whale's cultural history from Jonah to *Moby-Dick*, *Pinocchio* to *Free Willy*; and seeks to discover why these strange and beautiful animals continue to exert such a powerful grip on our imagination.

A blend of the travel and nature writing in the tradition of Jonathan Raban and John McPhee, *The Whale* is a gripping voyage into the heart of Hoare's obsession—and ours.
