Andrew Young served as a volunteer for John Edwards's winning campaign for U.S. Senate. Hired in 1999, Young became Edwards's longest serving and most trusted aide. He raised more than \$10 million for the politician's various causes and played a key role in Edwards's efforts to become president of the United States. Now a private citizen, he lives in Chapel Hill with his wife, Cheri, and their three children.

Kevin Foley has over thirty years' experience in radio and television broadcasting, commercial voice-overs, and audiobook narration. He has recorded over 150 audiobooks, including *Storm Rising* by Gary Naiman, *100 Ways to Bring Out Your Best* by Roger Fritz, and *The Last Witness* by Joel Goldman.

Andrew Young

The Politician

An Insider's Account of John Edwards's Pursuit of the Presidency and the Scandal That Brought Him Down

The underside of modern American politics are revealed in detail by Andrew Young's riveting account of a presidential hopeful's meteoric rise and scandalous fall.

Andrew Young volunteered for the John Edwards campaign for Senate in 1998 and quickly became the candidate's right-hand man. As the senator became a national star, Young's responsibilities grew. For a decade he was this politician's confidant, and he was assured he was "like family." In time, however, Young was drawn into a series of questionable assignments that culminated with Edwards asking him to help conceal the senator's ongoing adultery.

Young had been the senator's closest aide and most trusted friend. He believed that John Edwards could be a great president and was assured throughout the cover-up that his boss and friend would ultimately step forward to both tell the truth and protect his aide's career. Neither promise was kept.

Not only is *The Politician* a moving personal account of Andrew Young's political education, but it also offers a look at the trajectory that made John Edwards the ideal Democratic candidate for president and the hubris that brought him down, leaving his career, his marriage, and his dreams in ashes.

PRaise FOR THE POLITICIAN

"The greatest political saga, the one that has it all, that gets to the real heart of American politics, is the John Edwards story... This isn't just politics, it's literature. It's the great American novel, the kind that isn't written anymore."

—**Michael Wolff**, on John Edwards's trajectory, on VanityFair.com.

The Dream of Perpetual Motion

A Novel

A wonderfully imagined novel about a greeting card writer who must come to terms with the madness of a genius inventor and his quest to create the perpetual motion machine.

Imprisoned aboard a zeppelin that floats above a city reminiscent of those of the classic films *Metropolis* and *Brazil*, the greeting card writer Harold Winslow is composing his memoirs. His companions are the only woman he has ever loved, who has gone insane, and the cryogenically frozen body of her father, the devilish genius who drove her mad. The tale of Harold's decades-long thwarted love is also one in which he watches technology transform his childhood home from a mere burgeoning metropolis to a waking dream, in which the well-heeled have mechanical men for servants, deserted islands can exist within skyscrapers, and the worlds of fairy tales can be built from scratch. And as he heads toward a final, desperate confrontation with the mad inventor, he discovers that he is an unwitting participant in the creation of the greatest invention of them all—the perpetual motion machine.

The Dream of Perpetual Motion is a memorable debut that will be one of the most talked-about books of the year.
