Lady Fiona Carnarvon married the current Earl of Carnarvon in 1999, and they took over Highclere eight years ago.

Wanda McCaddon has narrated well over six hundred titles for major audio publishers and has earned twenty-five Earphones Awards from *AudioFile* magazine. She has also been nominated for a coveted Audie Award, and *AudioFile* has named her one of recording's Golden Voices.

The Countess of Carnarvon

Lady Almina and the Real Downton Abbey

The Lost Legacy of Highclere Castle

From the Countess of Carnarvon comes the story behind Highclere Castle, the real-life inspiration and setting for the PBS series *Downton Abbey*, and the life of one of its most famous inhabitants: Lady Almina, the fifth Countess of Carnarvon.

Lady Almina and the Real Downton Abbey tells the story behind Highclere Castle, the real-life inspiration and setting for Julian Fellowes's Emmy Award-winning PBS show, and the life of one of its most famous inhabitants: Lady Almina, the fifth Countess of Carnarvon. Drawing on a rich store of materials from the archives of Highclere Castle, including diaries, letters, and photographs, the current Lady Carnarvon has written a transporting story of this fabled home on the brink of war.

Much like her *Masterpiece Classic* counterpart Lady Cora Crawley, Lady Almina was the daughter of a wealthy industrialist, Alfred de Rothschild, who married his daughter off at a young age, her dowry serving as the crucial link in the effort to preserve the Earl of Carnarvon's ancestral home. Throwing open the doors of Highclere Castle to tend to the wounded of World War I, Lady Almina distinguished herself as a brave and remarkable woman.

This rich tale contrasts the splendor of Edwardian life in a great house against the backdrop of the First World War and offers an inspiring and revealing picture of the woman at the center of the history of Highclere Castle.

MARKETING

- The real-life inspiration and setting for Julian Fellowes's Emmy Award-winning PBS show
- Top 100 on Amazon

PRAISE FOR LADY ALMINA AND THE REAL DOWNTON ABBEY

"Gives the juicy back story behind last year's Emmy-winning *Masterpiece Theater* drama." —*The New York Times*

"If you can't wait for the new season of *Downton Abbey* . . . this one's for you. . . . A revealing portrait of the changing times." —*New York Post*

"The present Lady Carnarvon, who tapped the family archives for her comprehensive research, dramatically captures the estate during the pre-war and war years, and paints a compelling . . . portrait of Lady Almina."

—*Newark Star-Ledger*

Peter H. Diamandis is the chairman and CEO of the X PRIZE Foundation, cofounder and chairman of Singularity University, and the founder of more than a dozen high-tech companies. He has degrees in molecular genetics and aerospace engineering from MIT and an M.D. from Harvard Medical School.

Steven Kotler is the author of the bestselling novel *The Angle Quickest for Flight* and the nonfiction work *West of Jesus*, a 2006 PEN West finalist. His work has appeared in the *New York Times Magazine*, *GQ*, *Wired*, *Discover*, *Popular Science*, *Details*, *Outside*, *National Geographic*, and elsewhere.

Author residence: New Mexico

Arthur Morey has performed, directed, and written for theaters in New York, Chicago, and Milan. His more than 130 audio titles have won numerous awards and citations. Recent projects included the National Book Award nominee *To End All Wars* by Adam Hochschild.

Peter H. Diamandis and Steven Kotler

Abundance

The Future Is Better Than You Think

Providing abundance is humanity's grandest challenge; this is a book about how we rise to meet that challenge.

We will soon be able to meet and exceed the basic needs of every man, woman, and child on the planet. Abundance for all is within our grasp. This bold, contrarian view, backed up by exhaustive research, introduces our near-term future, where exponentially growing technologies and three other powerful forces are conspiring to better the lives of billions of people. This book is an antidote to pessimism by tech-entrepreneur-turned-philanthropist Peter H. Diamandis and award-winning science writer Steven Kotler.

Since the dawn of humanity, a privileged few have lived in stark contrast to the hardscrabble majority. Conventional wisdom says this gap cannot be closed. But it is closing—fast. The authors document how four forces—exponential technologies, the DIY innovator, the Technophilanthropist, and the Rising Billion—are conspiring to solve our biggest problems. Abundance establishes hard targets for change and lays out a strategic road map for governments, industry, and entrepreneurs, giving us plenty of reason for optimism.

Examining human need by category—water, food, energy, health care, education, and freedom—Diamandis and Kotler introduce dozens of innovators making great strides in each area: Larry Page, Steven Hawking, Dean Kamen, Daniel Kahneman, Elon Musk, Bill Joy, Stewart Brand, Jeff Skoll, Ray Kurzweil, Ratan Tata, Craig Venter, and many, many others.

PRAISE FOR ABUNDANCE

"This engaging book is a needed corrective, a whirlwind tour of the latest developments in health care, agriculture, energy, and other fields as well as an introduction to thinkers and innovators such as Daniel Kahneman, Ray Kurzweil, and Craig Venter." —*Publishers Weekly*

"A nicely optimistic look at a matter that usually brings out the darkest thoughts among prognosticators—if a touch starry-eyed, at least a dream worth nurturing." —*Kirkus*
