WOKEN FURIES

The highly anticipated third installment in the wildly popular Takeshi Kovacs series.

Once a gang member, then a marine, then a galaxy-hopping Envoy trained to wreak slaughter and suppression across the stars, a bleeding, wounded Takeshi Kovacs was chilling out in a New Hokkaido bar when some so-called holy men descended on a slim beauty with tangled, hyperwired hair. An act of quixotic chivalry later and Kovacs was in deep: mixed up with a woman with two names, many powers, and one explosive history.

In a world where the real and virtual are one and the same and the dead can come back to life, the damsel in distress may be none other than the infamous Quellcrust Falconer, the vaporized symbol of freedom now gone from Harlan's World. Kovacs can deal with the madness of AI. He can do his part in a battle against biomachines gone wild, search for a three-centuries-old missing weapons system. And live with a blood feud with the yakuza, and even with the betrayal of people he once trusted. But when his relationship with the Falconer brings him an enemy specially designed to destroy him, he knows it's time to be afraid.

After all, the guy sent to kill him is himself; but younger, stronger, and straight out of hell.

Wild, provocative, and riveting, *Woken Furies* is a full-bore science fiction spectacular of the highest order - from one of the most original and spellbinding storytellers at work today.
