## NICHOLAS PERRICONE, M.D. AGELESS FACE, AGELESS MIND Erase Wrinkles and Rejuvenate the Brain

Bestselling author and anti-aging expert Dr. Nicholas Perricone shares important new medical findings that can affect our looks, health, and even memory—and presents a complete inside-and-out rejuvenation program.

They're called Advanced Glycosylation End Products (AGEs): the number-one cause of accelerated physical and mental aging. As detrimental to our health as trans fats, they've been far less well known to the public. Until now. Fortunately, after decades of research, the mystery of how AGEs work—and how to halt and even reverse their devastating effects—has at last been cracked. And anti-aging expert Nicholas Perricone is leading the charge to combat AGEs damage with a three-part plan for effectively eliminating deep wrinkles and sagging skin to prevent age-related conditions, including Alzheimer's, cataracts, cardiovascular disease, diabetes, impaired memory, and cancer, which AGEs promote.

Using Dr. Perricone's strategies—including a nutritional program, targeted supplements, and new topicals—results in rapid, noticeable improvements while healing and strengthening all of the body's systems. In his trusted, informative style, Dr. Perricone shares secrets about which foods and cooking methods can minimize the AGEs threat, exposes the presence of AGEs in processed foods, offers a practical shopping guide, and much more. This fall everyone will be buzzing about AGEs, but only one book will have the information and the Perricone strategy to combat them.
