ROBERT WRIGHT

THE EVOLUTION OF GOD

The prize-winning author of *The Moral Animal* and *Nonzero* presents a groundbreaking examination of religion through the ages.

In this sweeping narrative, which takes us from the Stone Age to the Information Age, Robert Wright unveils an astonishing discovery: there is a hidden pattern that the great monotheistic faiths have followed as they have evolved. Through the prisms of archeology, theology, and evolutionary psychology, Robert Wright's findings overturn basic assumptions about Judaism, Christianity, and Islam, and are sure to cause controversy. He explains why spirituality has a role today and why science, contrary to conventional wisdom, affirms the validity of the religious quest. And this previously unrecognized evolutionary logic points not toward continued religious extremism but to future harmony.

Nearly a decade in the making, *The Evolution of God* is a breathtaking reexamination of the past and a visionary look forward.

KEY POINTS/MARKETING

- Bestselling author
- *New York Times* Editors' Choice
- National media campaign including television, print, radio and online interviews
- Select author appearances
- Cross promotion on www.BloggingHeads.tv

PRAISE FOR THE EVOLUTION OF GOD

"[Arthur Morey's] pronunciation is impressive, especially when he vocalizes sounds from African languages for which there sometimes are no English equivalents." —*AudioFile*

"Wright's tone is reasoned and careful, even hesitant, throughout, and it is nice to read about issues like the morality of Christ and the meaning of jihad without getting the feeling that you are being shouted at."

—*New York Times*
